

The Heat - Green Bay IMC Club Monthly Meeting

A good activity for anyone interested in instrument flying. Use real world scenarios to increase your level of safety in the IFR environment. Safe instrument flying is a matter of mitigating risk, personal minimums and standard operating procedures. If you have and use sound judgment, establish personal minimums and good procedures, you can enjoy a long and successful career of instrument flying. The Green Bay IMC Club provides organized "hangar flying" focused on building proficiency in instrument flying. An instrument rating is not required for attendance. The meeting will also include a video presentation on weather.

Directions: Upper level classroom area

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
